### **LETTER OF SUPPORT TO THE CROATIAN UNIONS**

UNI Europa supports the Croatian unions in their fight for fair pension reforms.

It is a fight that concerns all Croatians, a struggle that we share with you because fair pensions matter to all Europeans.

It is unacceptable that the Government has refused to discuss alternative proposals and has chosen only to explain their reforms. This is unacceptable in a decent democracy and it is unacceptable in the European Union.

As such, Croatian unions are right taking to the streets to protest. UNI Europa supports your protest. We are with you.

In Croatia and throughout the EU we need a guarantee of decent and quality jobs for all workers that allows a decent standard of living and a decent pension for a well-deserved retirement after years of work.

We call on the Croatian Government to change its reforms and negotiate with trade unions for fair pensions for all workers in Croatia.
